SUMMARY DESCRIPTION OF COURSE:

Advanced Legal Writing: Practical Skills emphasizes the skills and techniques employed in drafting various common litigation and transactional documents. The emphasis is on writing, both in and out of class. Class time is spent discussing, writing and evaluating a variety of legal documents, with out-of-class time spent drafting and revising graded litigation and transactional documents.

COURSE CONTENT:

In-class writing exercises, out-of-class text and writing assignments, lectures, and group discussion and evaluation.

RELEVANCY OF COURSE FOR CAREER PURPOSES:

This course provides practical, hands-on experience in drafting the documents attorneys are asked to prepare in their first years of practice. Because the class focuses in part on understanding and drafting common litigation documents, it necessarily includes discussions and reference to the rules of civil procedure.

Additionally, because this class focuses on writing, the improved writing skills will transfer to the essay and practical skills portions of the Bar Exam. Moreover, at least one of the assigned documents has the potential to serve as a writing sample for prospective employers.
