CHAMBERS OF  
JUSTICE BYRON R. WHITE

December 29, 1988

86-1088 - City of Canton v. Harris

Dear Byron,

Although I would like to see your revised draft and think about this case in agreement with your opinion. In view of your letter to Sandra today, however, I thought I should say that a remand seems to me appropriate in this case. If you were to hold that respondent's proof was insufficient, the matter of law and that reversal without remand is the proper disposition. I have very much doubt that I could I also agree with your suggestion that the relevant policymakers in section 1983 suits, and that there is no reason to believe that they are not acting in good faith.
