86-1088 - City of Canton v. Harris

Dear Sandra,

Thank you for your letter about the circulating draft in this case.

The change 86-1088 - City of Canton v. Harris will be made in a second draft.

As for your numbered suggestions on page three of your letter, Dear John, that under the draft's approach, and yours, too, liability turns on whether the need for additional training is sufficient. Thank you for your suggestions about the circulating draft in this case. I am sending a second draft to the printer containing each

You suggest, secondly, that the draft opinion be somewhat elaborate of your suggested changes. which I think contains the essence of your suggestion.

Sincerely yours,

Lastly, I still prefer to remand because our opinion will announce a standard at odds with circuit precedent and because I would normally leave the task of a factual search of the record to the court of appeals. But majority is of the other view, I should be willing to be its scribe.
