

1983 v junior dams vs a MC - also immunity?

DCE

July ga compen - junior vs MC + council memo

No objection to junior memo at trial - the error to reject, was raised on into NOV  
but + issue was "critical"

Junior dams really OK in a 1983 action - determine

OK vs minors

Too much vs city, reduced for 200 to 75k

C1 + d.

failure + object may b established only w error plain + affects trial entry  
n cert it was error

I was -

JD OK.

1. Failure + object - + merits were given full atten by + DCE

work for to, as we do w a St DCE Qs. Issue is exempt - no harm

2. Is agree to us a c l immu for MC vs junior dam award.

but this may be b ed in respect superior concept

3. @ pol - deterrence, all right

but little to add on minors re liability

deter effect on voters speculation +, in his passage, unrecalibrated

Arson - This exposed MC more than PL

Deterrence + c l award for junior dams re ?ble

Can we award a per se rule? @ my conc in fault (re unions)
