Re: No. 83-1919, City of Oklahoma City v. Tuttle

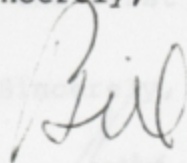

Dear Bill:

No. 83-1919

My concerns about your opinion in this case are similar to those expressed by Bill Brennan in his letter of February 19. I, therefore, share City of Oklahoma City v. Tuttle. I am not disturbed by your Part II and am advising you that I would prefer to proceed to the merits in the Criswell case rather than Bill.

Dear Bill: further detail. On page 10 you state that the respondent has not claimed that the city had a policy of authorizing. It appears that the Court will be reaching the merits in this case, apart from whatever occurs in Criswell. Thanks for your letter of February 20 in response to mine of February 19, but I do not think that your suggestions will accommodate all of my concerns. I shall therefore file an opinion concurring in the judgment as soon as I can get around to it.

Sincerely,

Justice Rehnquist
